

## ISPIIM JUNIOR RESEARCHER LAB

**14<sup>th</sup> June 2015, Budapest, Hungary**

Budapest Marriott Hotel, Apáczai Csere János utca 4

ISPIIM is organising its flagship Junior Researcher Lab 2015 in Budapest, which will be taking place during the XXVI ISPIIM Innovation Conference. If you are currently doing a PhD, considering doing one, or just graduated - then the ISPIIM Junior Researcher Lab is for you!

The ISPIIM PhD Community is organised to serve as a platform for young career researchers and PhD students to meet, collaborate, network and exchange experiences with other colleagues, leading researchers and practitioners in the field. It is essentially a community to share ideas and connect while providing valuable support in dealing with the challenges of completing a PhD in innovation management as well as getting started with a post-PhD Career.

This community has already connected over 140 early stage innovation scholars globally in two and half years making ISPIIM one of the most rapidly growing innovation communities for junior researchers.

**Kindly note: In order to participate pre-registration for the Lab is required** (aside from the main conference registration). [Click here to register.](#)

Join the conversation on our [LinkedIn](#) page and see you in Budapest!

SHAPING THE FRONTIERS OF  
INNOVATION MANAGEMENT

**14-17 June 2015**

## PROGRAMME

### 13:00 Registration Opens

### 13.45-13.50 Welcome

### 13.50-14.05 Facilitated Networking

Participants will not only meet new people, but also learn and familiarise themselves with each other's research areas and topics through short "research pitches". Our aim is that you will walk out of this event with possible future co-authors, so be sure to bring your business cards and contact details!

### 14.05-14.50 Career Speed Date/Post-PhD Career Tips/Job Interviews

A unique opportunity to meet recruiting companies and universities. Pre-selected participants would be interviewed and recruited alongside the lab. Various career options inside and outside academia will also be discussed, helping you focus on planning your studies and the next steps. [Read More >>](#)

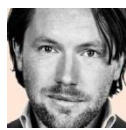

### 14.50-15.00 Networking Break

### 15.00-15.30 Panel: After PhD what next? Practitioner's Perspective

Seasoned innovation managers and practitioners from multinationals, startups and even the university are brought together to highlight the possibilities that exists after a PhD degree particularly in the industry. They provide insights on what can be achieved and how to start thinking and positioning yourself for the road ahead.
